

ART

Artistic creativity has no limits other than your own imagination! We would love to see your golf-inspired art creations here at PGA TOUR Links To Learning. We have a couple of ideas to get you started.

GOLF-INSPIRED SIDEWALK ART

Show us your golf-inspired sidewalk art! Think putt putt holes, names made with golf items, nice messages for your neighbors to see during their walks...whatever it is, golf can happen everywhere! Grab your chalk and have fun!

DESIGN A GOLF HOLE

How do you imagine the perfect golf hole? Does it have water? Lots of trees? Sand everywhere? Or is it nice and wide open? Is it short or long? Draw and color a hole to show us what you would build if you were the chief designer for a day. Or if you are feeling extra creative you can come up with something in 3D!

PAINT WITH GOLF BALLS

Ask a parent first on this one but if you have some paint, and some old golf balls, you can have some creative and messy fun! Use the golf balls as your paint brush and see what you can come up with!

COLOR!

Check out our coloring book pages! Be careful to watch out for the alligator and don't forget to design your very own golf bag!
